SUMMARY

Versatile software developer and quality assurance professional with dual expertise in multiplatform mobile development and enterprise application testing. Experienced in architecting full-stack systems with Kotlin Multiplatform and leading technical projects as sole *Tech Lead*, while maintaining rigorous QA standards throughout development.

EDUCATION

Universitas Terbuka (Open University) <i>Bachelor of Information Systems — Active Student — entering Semester 3 in Q3 2026</i>	Jakarta, Indonesia 2025 – Present
SMK Negeri 21 Jakarta <i>Vocational High School — Software Engineering</i>	Jakarta, Indonesia July 2022 – June 2025
- Represented school at LKS IT Software Solution for Business competition, Jakarta Pusat City Level — Grade XI, 2024. - Represented school at LKS 3D Game Art competition, Jakarta Pusat City Level — Grade XII, 2025.	
SMP Negeri 264 Jakarta <i>Junior High School</i>	Jakarta, Indonesia July 2019 – June 2022
SD Negeri Duri Kosambi 11 Petang <i>Elementary School</i>	Jakarta, Indonesia July 2013 – June 2019

EXPERIENCE

PT Cartenz Technology <i>Quality Assurance Intern</i>	Jakarta, Indonesia July 2024 – July 2025
SmartGov Revenue (Web & Mobile): Comprehensive functional and regression testing of the BPHTB tax module: taxpayer registration, identity verification, payment processing (full/installment/arrears), NJOP calculation, SSPD printing, and data validation across test and regional production environments. SmartGov Retribusi: Full coverage testing of a newly launched module: GIS interactive spatial map, multi-role account data flows (admin/field officer/taxpayer), and GPS coordinate accuracy validation between backend and mobile. Mobile App SmartGov Revenue: GPS accuracy, spatial map distribution, and mobile-backend data synchronization testing on Android. Citigov: End-to-end BPHTB business logic testing including user onboarding and taxpayer self-registration. - Authored test case documentation; reported bugs with comprehensive defect reports; performed regression testing post-deployment using Playwright (web) and Appium/Selenium (mobile automation). - Leveraged Azure DevOps for test backlog monitoring and task management while orchestrating Git-based version control workflows for automated test suites.	

PROJECTS

PresensiQ <i>Kotlin, Compose Multiplatform, Go, Rust, Elixir, PostgreSQL</i>	2025 – Present
Tech Lead & sole developer of a multiplatform attendance system (Android, Desktop, iOS, Web). Backend microservices: Go (API Gateway, Form, Submission, Report, Audit, Media), Rust (Identity/PASETO v4, Policy/Casbin RBAC), Elixir (Realtime WebSocket Channels). - Key features: GPS geolocation verification with radius threshold, multi-tenancy via PostgreSQL RLS, dynamic time-restricted forms, real-time dashboard, CSV export/import, configurable user groups.	
TemuBelajar <i>Kotlin Multiplatform, Elixir, WebRTC, WebSocket</i>	2024 – 2025
Tech Lead of an inter-university student video chat matching platform. Frontend KMP (Android/iOS/Desktop/Web). Backend Elixir microservices: API Gateway, Auth, User, WebRTC Signaling, Matchmaking, Email, Social Service.	
Blaster Browser <i>Kotlin, Jetpack Compose, Decompose, ObjectBox, Tor</i>	2026
Android browser with automated content filtering (gambling/adult sites), Tor Network privacy integration, and ObjectBox local database for history, bookmarks, and custom block-lists.	
Qalbun <i>Kotlin, Jetpack Compose, Decompose, Ktor, Koin, ObjectBox</i>	2025

- Android mobile frontend for an Islamic companion app: Al-Quran (Arabic, translation, audio), Hadith, Dzikir counter, Asmaul Husna, Daily Prayers, Prophet Stories, prayer guide, and QalbunAI assistant.

Mirikanime | *Kotlin, Jetpack Compose, Ktor, KSP, Kotlin Serialization* 2025

- Android frontend for an anime streaming app: catalog with search and genre filter, episode listings, and in-app video streaming player.

TECHNICAL SKILLS

Mobile Development: Kotlin, Jetpack Compose, Compose Multiplatform, Kotlin Multiplatform, Android SDK, Decompose, Ktor, Koin, ObjectBox, Coroutines, Flow
Backend & Database: Go, Rust, Elixir, PostgreSQL, REST API, WebSocket, WebRTC, PASETO v4, Casbin RBAC, Row-Level Security
Quality Assurance: Manual Testing, Playwright, Appium, Selenium, Regression Testing, UAT, GPS/GIS Spatial Testing
Tools: Git, Android Studio, IntelliJ IDEA, Docker, Postman

CERTIFICATIONS

Professional Competency Certificate — Junior Mobile Programmer Indonesia
National Professional Certification Agency (BNSP) May 2025

- Nationally recognized certification issued by the Indonesian Government’s BNSP through structured competency assessment. Covers mobile architecture, Android/Kotlin development, API integration, and professional development practices.

Quality Assurance Internship Certificate Jakarta, Indonesia
PT Cartenz Technology July 2025

- Issued upon completion of a 1-year QA internship on enterprise government platforms. Validates competency in functional, regression, and automation testing in live production environments.
